# SAFETY DATA SHEET

## 1. Identification

| Product number                    | P050  |
|-----------------------------------|---|
| Product identifier                | 19 OZ PERFORMANCE PLUS GLASS CLEANER  |
| Company information               | R J SCHINNER<br>N89 W14700 PATRITA DR.<br>MENOMONEE FALLS, WI 53051 United States |
| Emergency telephone US            | 1-866-836-8855  |
| Emergency telephone outside<br>US | 1-952-852-4646  |
| Version #                         | 01  |
| Recommended use                   | cleaner   |
| Recommended restrictions          | None known.   |
| 2 Hazard(a) identification        |   |

### 2. Hazard(s) identification

| Physical hazards Gases under pr |                 |
|---------------------------------|-----------------|
| Health hazards                  | Not classified. |
| OSHA defined hazards            | Not classified. |
|                                 |                 |

Label elements

Liquefied gas

| $\langle \cdot \rangle$ |  |
|-------------------------|--|

| Signal word                                  | Warning  |  |
|--|--|--|
| Hazard statement                             | Contains gas under pressure; may explode if heated.                            |  |
| Precautionary statement                      |  |  |
| Prevention                                   | Observe good industrial hygiene practices.                                     |  |
| Response                                     | If exposed or concerned: Get medical advice/attention.                         |  |
| Storage                                      | Protect from sunlight. Store in a well-ventilated place.                       |  |
| Disposal                                     | Dispose of waste and residues in accordance with local authority requirements. |  |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.  |  |
| Supplemental information                     | None.  |  |

# 3. Composition/information on ingredients

### **Mixtures**

| Chemical name             | Common name and synonyms | CAS number | %        |
|---------------------------|--------------------------|------------|----------|
| 2-Butoxyethanol           |                          | 111-76-2   | 2.5 - 10 |
| Ethyl Alcohol             |                          | 64-17-5    | 2.5 - 10 |
| Butane                    |                          | 106-97-8   | 1 - 2.5  |
| Propane                   |                          | 74-98-6    | 1 - 2.5  |
| Other components below re | portable levels          |            | 90 - 100 |

Other components below reportable levels

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

| 4. First-aid measures |   |
|-----------------------|---|
| Inhalation            | Move to fresh air. Call a physician if symptoms develop or persist. |
| Skin contact          | No adverse effects due to skin contact are expected.                |
| Eye contact           | No specific first aid measures noted.                               |

| Ingestion  | Not likely, due to the form of the product.   |
|--|---|
| Most important<br>symptoms/effects, acute and<br>delayed                     | Direct contact with eyes may cause temporary irritation.  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Provide general supportive measures and treat symptomatically.  |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.  |
| 5. Fire-fighting measures  |   |
| Suitable extinguishing media   | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).   |
| Unsuitable extinguishing media   | None known.   |
| Specific hazards arising from the chemical                                   | During fire, gases hazardous to health may be formed.   |
| Special protective equipment<br>and precautions for firefighters             | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.   |
| Fire fighting<br>equipment/instructions                                      | In case of fire: Stop leak if safe to do so. Do not move cargo or vehicle if cargo has been exposed to heat. Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out. |
| Specific methods   | Cool containers exposed to flames with water until well after the fire is out.  |
| General fire hazards   | Contents under pressure. Pressurized container may explode when exposed to heat or flame.   |

### 6. Accidental release measures

| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Wear appropriate protective equipment and clothing during clean-up. Emergency personnel need self-contained breathing equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.  |  |
|---|--|--|
| Methods and materials for<br>containment and cleaning up                  | Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. For waste disposal, see section 13 of the SDS.   |  |
| Environmental precautions   | Avoid discharge into drains, water courses or onto the ground.   |  |
| 7. Handling and storage   |  |  |
| Precautions for safe handling   | Keep away from heat/sparks/open flames/hot surfaces No smoking. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Ground and bond containers when transferring material. Close valve after each use and when empty. Protect cylinders from physical damage; do not drag, roll, slide, or drop. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Purge air from system before introducing gas. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt. Do not re-use empty containers. Do not get in |  |

Conditions for safe storage, including any incompatibilities

Contents under pressure. Do not expose to heat or store at temperatures above 120°F/49°C as can may burst. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. Cylinders should be stored upright, with valve protection cap in place, and firmly secured to prevent falling or being knocked over. Stored containers should be periodically checked for general condition and leakage. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

eyes, on skin, or on clothing. Avoid prolonged exposure. Use only in well-ventilated areas. Wear

appropriate personal protective equipment. Observe good industrial hygiene practices.

Level 1 Aerosol.

## 8. Exposure controls/personal protection

### **Occupational exposure limits**

### US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

| Components                        | Туре         | Value      |  |
|-----------------------------------|--------------|------------|--|
| 2-Butoxyethanol (CAS<br>111-76-2) | PEL          | 240 mg/m3  |  |
|                                   |              | 50 ppm     |  |
| Ethyl Alcohol (CAS 64-17-5)       | PEL          | 1900 mg/m3 |  |
|                                   |              | 1000 ppm   |  |
| Propane (CAS 74-98-6)             | PEL          | 1800 mg/m3 |  |
|                                   |              | 1000 ppm   |  |
| US. ACGIH Threshold Limit Values  |              |            |  |
| Components                        | Туре         | Value      |  |
| 2-Butoxyethanol (CAS<br>111-76-2) | TWA          | 20 ppm     |  |
| Butane (CAS 106-97-8)             | STEL         | 1000 ppm   |  |
| Ethyl Alcohol (CAS 64-17-5)       | STEL         | 1000 ppm   |  |
| US. NIOSH: Pocket Guide to Chem   | ical Hazards |            |  |
| Components                        | Туре         | Value      |  |
| 2-Butoxyethanol (CAS<br>111-76-2) | TWA          | 24 mg/m3   |  |
|                                   |              | 5 ppm      |  |
| Butane (CAS 106-97-8)             | TWA          | 1900 mg/m3 |  |
|                                   |              | 800 ppm    |  |
| Ethyl Alcohol (CAS 64-17-5)       | TWA          | 1900 mg/m3 |  |
|                                   |              | 1000 ppm   |  |
| Propane (CAS 74-98-6)             | TWA          | 1800 mg/m3 |  |
|                                   |              | 1000 ppm   |  |

### **Biological limit values**

### ACGIH Biological Exposure Indices

| Components                        | Value    | Determinant                                    | Specimen            | Sampling Time |
|-----------------------------------|----------|--|---------------------|---------------|
| 2-Butoxyethanol (CAS<br>111-76-2) | 200 mg/g | Butoxyacetic<br>acid (BAA),<br>with hydrolysis | Creatinine in urine | *             |

\* - For sampling details, please see the source document.

### Exposure guidelines

| US - California OELs: Skin c     | lesignation   |  |
|----------------------------------|---|--|
| 2-Butoxyethanol (CAS 111-76-2)   |   | Can be absorbed through the skin.                                |
| US - Minnesota Haz Subs: S       | kin designation applies   |  |
| 2-Butoxyethanol (CAS 11          | 1-76-2)   | Skin designation applies.  |
| US - Tennessee OELs: Skin        | designation   |  |
| 2-Butoxyethanol (CAS 11          | 1-76-2)   | Can be absorbed through the skin.                                |
| US NIOSH Pocket Guide to         | Chemical Hazards: Skin desig  | gnation  |
| 2-Butoxyethanol (CAS 11          | 1-76-2)   | Can be absorbed through the skin.                                |
| US. OSHA Table Z-1 Limits        | for Air Contaminants (29 CFR  | 1910.1000)   |
| 2-Butoxyethanol (CAS 11          | 1-76-2)   | Can be absorbed through the skin.                                |
| Appropriate engineering controls | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |  |
| Individual protection measures,  | such as personal protective   | equipment  |
| Eye/face protection              | Wear safety glasses with side shields (or goggles).   |  |
| Skin protection                  |   |  |
| Hand protection                  | Wear appropriate chemical re<br>supplier.   | esistant gloves. Suitable gloves can be recommended by the glove |
| Other                            | Wear suitable protective clothing.  |  |

| Respiratory protection         | If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an<br>air-supplied respirator.   |
|--------------------------------|--|
| Thermal hazards                | Wear appropriate thermal protective clothing, when necessary.  |
| General hygiene considerations | When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |

# 9. Physical and chemical properties

| Appearance                                 |   |
|--|---|
| Physical state                             | Gas.  |
| Form                                       | Aerosol. Liquefied gas.   |
| Color                                      | Not available.  |
| Odor                                       | Not available.  |
| Odor threshold                             | Not available.  |
| рН   | 9.1 - 10.1 estimated  |
| Melting point/freezing point               | Not available.  |
| Initial boiling point and boiling range    | 212 °F (100 °C) estimated   |
| Flash point                                | -156.0 °F (-104.4 °C) Propellant estimated  |
| Evaporation rate                           | Not available.  |
| Flammability (solid, gas)                  | Not available.  |
| Upper/lower flammability or exp            | losive limits   |
| Flammability limit - lower<br>(%)          | Not available.  |
| Flammability limit - upper<br>(%)          | Not available.  |
| Explosive limit - lower (%)                | Not available.  |
| Explosive limit - upper (%)                | Not available.  |
| Vapor pressure                             | 80 - 100 psig @70F estimated  |
| Vapor density                              | Not available.  |
| Relative density                           | Not available.  |
| Solubility(ies)                            |   |
| Solubility (water)                         | Not available.  |
| Partition coefficient<br>(n-octanol/water) | Not available.  |
| Auto-ignition temperature                  | Not available.  |
| Decomposition temperature                  | Not available.  |
| Viscosity                                  | Not available.  |
| Other information                          |   |
| Aerosol spray enclosed spa                 |   |
| Deflagration density                       | > 2.52 g/cm3 Tested   |
| Aerosol spray ignition distance            | < 15 cm Tested estimated  |
| Explosive properties                       | Not explosive.  |
| Oxidizing properties                       | Not oxidizing.  |
| Specific gravity                           | 0.977 - 0.997   |
| 10. Stability and reactivity               |   |
| Reactivity                                 | The product is stable and non-reactive under normal conditions of use, storage and transport. |
| Chemical stability                         | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions      | Hazardous polymerization does not occur.  |
|  |   |

Heat. Avoid temperatures exceeding the flash point. Contact with incompatible materials.

Product name: 19 OZ PERFORMANCE PLUS GLSS CLNR LB 12PK Product #: 1000028923 Version #: 01 Issue date: 04-14-2016

Conditions to avoid

| Incompatible materials  | Strong oxidizing agents.                       |
|-------------------------|--|
| Hazardous decomposition | No hazardous decomposition products are known. |
| products                |  |

# 11. Toxicological information

### Information on likely routes of exposure

| Inhalation   | Prolonged inhalation may be harmful.   |
|--|--|
| Skin contact   | 2-Butoxy ethanol may be absorbed through the skin in toxic amounts if contact is repeated and prolonged. These effects have not been observed in humans. |
| Eye contact  | Direct contact with eyes may cause temporary irritation.   |
| Ingestion  | Expected to be a low ingestion hazard.   |
| Symptoms related to the<br>physical, chemical and<br>toxicological characteristics | Direct contact with eyes may cause temporary irritation.   |

### Information on toxicological effects

### Acute toxicity

| Components                  | Species    | Test Results            |
|-----------------------------|------------|-------------------------|

\* Estimates for product may be based on additional component data not shown.

Persistence and degradability No data is available on the degradability of this product.

### **Bioaccumulative potential**

| Partition coefficient n-o | ctanol / water (log Kow)  |
|---------------------------|---|
| 2-Butoxyethanol           | 0.83  |
| Butane                    | 2.89  |
| Ethyl Alcohol             | -0.31   |
| Propane                   | 2.36  |
| Mobility in soil          | No data available.  |
| Other adverse effects     | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |

# 13. Disposal considerations

| Disposal instructions                    | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Dispose of contents/container in accordance with local/regional/national/international regulations. |
|--|---|
| Local disposal regulations               | Dispose in accordance with all applicable regulations.  |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.  |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).  |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is<br>emptied. Empty containers should be taken to an approved waste handling site for recycling or<br>disposal. Do not re-use empty containers.        |

**General information** 

Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers: Ensure that containers are firmly secured. Ensure cylinder valve is closed and not leaking. Ensure valve outlet cap nut or plug (where provided) is correctly fitted. Ensure valve protection device (where provided) is correctly fitted. Ensure adequate ventilation. Ensure compliance with applicable regulations.

### 15. Regulatory information

**US** federal regulations

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.
